

EXTERNAL GUIDANCE NOTES

Creative Wales 2025-26 Financial Support for Film Studios Impacted by the 2023 NDR (Non-Domestic Rates) Revaluation

These guidance notes are intended to help you to complete the funding application for Creative Wales's Studio NDR Fund 2025-26.

Studio NDR Fund Launch: **Thursday 8th May 2025**

Studio NDR Fund Deadline: **Monday 1 December 2025 at 12:00 noon**

1. Creative Wales – Strategic Context

The Creative Industries are an important part of the Welsh economy, creating jobs and wealth, contributing to a strong national brand and promoting Wales in the world. The film and television sector has been a priority sector for Creative Wales since its inception in January 2020 and prior to that it was a priority sector for the Welsh Government.

Targeted investment in studio infrastructure has been critical to the growth of the sector and Wales' ability to compete with other parts of the UK in hosting major international productions. In recent years, some of Wales' studios have been successful due to investment to be big enough to be able to host major international productions. Capital support is available via Creative Wales' grant funding to incentivise productions to base themselves in Wales.

The latest NDR revaluation took effect on 1 April 2023, based on an antecedent valuation date (AVD: a standardised reference point for evidence used to inform valuations) of 1 April 2021. The independent Valuation Office Agency (VOA) is responsible for assessing all non-domestic properties in Wales and England to assign rateable values, which are broadly intended to reflect annual rental values. The purpose of a revaluation is to reassess the whole of the tax-base and assign revised rateable values to reflect changes in rental market conditions since the previous revaluation. Regular revaluations are, therefore, intended to ensure fairness across the tax-base in the way that ratepayers contribute to the revenue raised through NDR to support local services. As a consequence of the 2023 revaluation, some sectors will have had increased rateable values and others will have decreased or remained at a similar level.

Purpose of fund

The aim of the fund is to provide financial support to film studios who have had large increases in NDR liabilities since the April 2023 revaluation. The support will be provided as

a grant through Creative Wales which for eligible film studios provides parity with the amount of support announced for England in 2025-26. The support provided is intended to ensure that, in effect, eligible film studios do not pay more than 60% of their gross NDR liability (i.e. what their liability would be in the absence of any other NDR reliefs they are eligible for, including transitional relief, and this grant).

For eligible studios, the value of the grant will offset the difference between 60% of their gross liability and their actual NDR bill (issued directly to the studio by the relevant local authority).

2. Fund Process, Who can apply? Eligibility Criteria (see Annex 1)

This Call for funding proposals will commence on **Thursday 8 May 2025** and will close to applications on **Monday 1 December 2025 at 12:00 noon**. No late applications will be considered.
